Announcement no. 06/2016

Number of pages: 2

RTX A/S initiates a new share buy back programme

The Supervisory Board in RTX A/S (RTX) has decided to exercise the authority to buy back shares granted by the Annual General Meeting on 26 January 2016. The authority is valid until RTX's Annual General Meeting in January 2017 and covers a maximum value of up to DKK 35 million. RTX expects to use the full authorization given to repurchase shares for the maximum permitted value of DKK 35 million in the period until the next Annual General Meeting in January 2017.

As of 26 January 2016, RTX holds 533,128 treasury shares of a nominal value of DKK 5, equal to 5.83% of outstanding shares.

The share buy-back programme runs from 27 January 2016 to 04 May 2016. In this period RTX will acquire shares with a value of up to DKK 10 million. The share buy-back programme is initiated and structured in compliance with the EU Commission Regulation No. 2273/2003 of 22 December 2003 (the so-called Safe Harbour Regulation for share buy-back programmes) which ensures that RTX is protected against violation of insider legislation in relation to the share buy-back programme.

Conditions for the share buy back programme

- The purpose of the share buy back programme is to address the company's capital structure and to hedge sharebased payments.
- RTX has entered into a contract with ABG Sundal Collier, in which ABG Sundal Collier acts as financial advisor and as Lead Manager of the programme. ABG Sundal Collier handles all purchase transactions independently and without influence from RTX.
- The maximum amount that RTX may pay for shares purchased under the share buy-back programme is DKK 10 million. The authorisation of the annual general meeting gives RTX authority to own up to 10% of own shares.

E-mail : info@rtx.dk

- The shares cannot be purchased at prices exceeding the higher of (i) the price of the latest independent trade and (ii) the price of the highest independent bid on Nasdaq Copenhagen at the time of the transaction.
- Due to low liquidity in the company shares, and in accordance with the Safe Harbour Regulative, the Board has decided to deviate from the limit of purchase of no more than 25% of the average daily volume of the company shares traded on Nasdaq Copenhagen during the previous 20 trading days. Thus, the maximum of shares bought every trading day is equivalent to 50% of the average daily volume of company shares traded in the previous 20 trading days.
- RTX A/S will announce the number of purchased shares, as well as the value, on a weekly basis in a separate announcement to Nasdaq Copenhagen.
