Stock Exchange Announcement no. 11/2006  
Number of pages: 2

## RTX Telecom implements a focusing strategy

*Summary: The management of the RTX Telecom Group has implemented the first step of a focusing strategy, including among other things a reduction of capacity in order to adjust the Group's costs. The adjustment will be carried out in the Danish companies of the Group by among other things reducing the staff with approximately 70 employees. The main part of the reduction is accomplished by dismissals.*

As a consequence of the negative and unsatisfactory development in the result for the current financial year 2005/06, the Group's management is presently going through and estimating the Group's business activities with the intent of preparing a strategy for a focused, profitable development. The result of this process will be announced during the autumn, cf. Announcement no. 10/2006 dated 11 August 2006.

The management of the RTX Telecom Group has decided that the initial step in the above-mentioned process is to perform a comprehensive reduction of capacity with the intent of adjusting the Group's costs. The adjustment will be carried out in the Group's Danish companies by among other things reducing the staff with approximately 70 employees. The main part of the reduction is accomplished by dismissals. The dismissals are carried out concurrently with finishing some major development projects and thus that the Group's critical and necessary competences and functions, including the development activities, are kept intact.

The dismissals will be executed within the financial year 2005/06, and have no significant impact on the company's earnings in the current financial year. An increase in net turnover compared to this year and an operating profit/loss (EBIT) near break even is expected for the financial year 2006/07.

The Group's expectations to the financial year 2006/07 will be stated in connection with the publication of RTX Telecom's annual report for 2005/06 in December 2006.

Best regards,  
RTX Telecom A/S

Tage Rasmussen  
President & CEO
